

AcuPure Fiber

ALLOGRAFT TISSUE

Support Bone Repair

Natural Bone Void Filler for Spine Surgery

Spine surgeons count on Acuity Surgical's total support approach with the AcuPure Fiber Allograft Tissue and other premiere evidenced-based solutions.

Improved alternative to autograft

AcuPure Fiber is a refined alternative to autograft, with the additional benefit of demineralized cortical fibers. It is a natural bone void filler surgeons can use to promote rapid, complete bone regeneration. AcuPure Fiber also provides improved handling and osteoinductive payload.

Cortical fiber technology fills gaps & promotes bone growth

Pre-milled, cancellous bone product combined with demineralized cortical fibers to fill the gaps in bone caused by surgical procedures, trauma, infection, or excision of tumor(s).

Frozen & ready-to-use

AcuPure Fiber provides maximum surgical flexibility. After thawing, the bone product has a fibrous cancellous autograft consistency that can fill in defects of all shapes and sizes.

Rigorously screened for highest quality bone

AcuPure Fiber lets you ensure the highest quality bone product for your patient. It goes through an exacting donor screening and testing process from an AATB-Accredited Tissue Bank.

EACH SURGEON EVERY PATIENT
making total support a reality...again.

Description

AcuPure Fiber is a premier human tissue allograft consisting of frozen cancellous bone and demineralized cortical fibers that function as a bone void filler to support bone repair.

Indications

AcuPure Fiber is an allogeneic bone graft, which is used as bone void filler for bridging gaps in bone caused by surgical procedures, trauma, infection or excision of tumor(s). The allograft can be used in a number of orthopedic, spine, general and reconstructive surgical applications. AcuPure Fiber is intended for one-time use only, for a single patient, and by a licensed physician, dentist or podiatrist.

AcuPure Fiber combines pre-ground cancellous of 1–4mm in size, with the addition of demineralized cortical fibers that is aseptically processed. Because of minimal processing, AcuPure Fiber retains more of the natural components found in bone.

AcuPure Fiber is supplied frozen and packaged sterile in a peel pouch contained within another peel pouch. Allograft volume is indicated on the package label.

About Acuity

Spine surgeons choose Acuity Surgical for spinal implant solutions. They know they can count on Acuity's unwavering commitment to world class customer support of its premiere lumbar, cervical, and biologic evidenced-based systems.
